

Project design managers

GEMONT Ltd. employs a staff of highly qualified graduate engineers in different area of expertise. All of them possess Serbian Engineers Chamber's Licenses for project design managers and have conducted or took part in the following projects:

I Graduate civil engineers

- steel constructions for MW radio systems:
37 Main projects design of digital MW radio systems
- RBS site preparations:
4 Main projects design of RBS site building
- 1 Main projects design of RBS site preparation
- Control and expertise:
7 Main projects design of digital MW radio systems

II Graduate mechanical engineers

- construction and reconstruction of heating systems: 2 Main projects design of construction or reconstruction of heating systems

III Graduate electrical engineers – power engineering department

- power supply installations of high and mean voltage: 1 Main project design of power supllly installation 10kV
- power supply installations of low and mean voltage: 1 Main project design of voltage transformer station 10/0,4kV 250A
- RBS sites preparation and adaptation: 5 Main projects design of RBS site preparation
